Atlanta has a rich architectural heritage. But which building designs have the greatest impact?

An expert panel from the American Institute of Architects of Atlanta gave us a list that includes office buildings and places of worship, performance spaces and research centers; and both new and historic spaces; organized by the era in which they were built.

We profiled 13 buildings the AIA Atlanta panel deemed most significant.

Click the photo on the right for a slideshow.

Here are some feature stories about each building:

- [Candler Building](#)
- [Fox Theatre](#)
- [Cathedral of Christ the King](#)
- [High Museum of Art](#)
- [Buckhead Library](#)
- [High Museum of Art expansion](#)
- [1180 Peachtree](#)
- [Sovereign and 3344 Peachtree](#)
